Hungry Right ?

As everyday you are starving but you don't want to eat pasta again ? Tired of getting always the same results on your google search for « best recipe 2022 » ? We have a solution for you, **WhatEat !**

How it works

WhatEat offers you three solutions for all your food problems, and for free :

WhatEat Today

When you start WhatEat, we offer you a delicious recipe selected by the best chefs, but as we don't know you we can't give you the best recipe :(. If you want to get the best fit for your daily meal please **create an account** and specify your culinary preferences so we can adapt and give you more reliable results. You are lactose or gluten intolerant, you want to eat vegan : don't worry ! Just let us know in your user preferences !

WhatEat Fridge (Coming Soon)

Don't know what to do with these leftovers from the fridge ? We'll find you the best recipes you can cook with those strange ingredients bought last week. stop wasting your food !

WhatEat Week (Coming Soon)

You only go to your favorite hypermarket once a week and you don't know what buying? We have the solution for you! With WhatEat Week, we can give a complete week of recipes selected by our app!

Stop Buying processed food!

Example

[An example of a recipe will be posted on the web page]

Who are we ?

We are 5 students in the last year of the B.S in Computer Engineering in HEIG-VD. During our second summer university we have to realize a group work which consists in developing a web application.

The main objectives of this project are to :

- Specify, code and test a large application
- Acquire knowledge on new topics
- Manage the problems of a project in a team
- Write a report and present the work

Data privacy

We are here to help you find the best recipes for you today not to steal and sell your culinary preferences aswell as your private data !

Contact
